PIPS Australia are collecting additional data from teachers regarding students who score zero on the new Easier Reading (Bedroom screen) and/or the Phonics screens. We are interested to know why those students may be having trouble. This additional data will help us with our future planning and improvements to the PIPS program.

We’d love to hear from you. If you have a student/s who scores zero on the Easier Reading questions, please complete the section below.

If you have a student/s who scores zero on the Phonics section, please complete the following page. If any student scores zero for BOTH sections, just complete both parts.

This form can be downloaded and photocopied as needed, then emailed or posted to PIPS Australia. (Contact details on page 21 of the manual)

All data will be de-identified before being examined, and kept confidentially as per UWA Ethics requirements.

**Easier Reading (bedroom screen)**

Why was the student unable to answer the questions? (*Tick as many boxes as appropriate*)

- [ ] Has no knowledge of the item
- [ ] Not motivated to answer
- [ ] Not paying attention
- [ ] Doesn’t understand instructions
