### Part B: Permission to use your school's data for research project "PIPS Australia - Performance Indicators in Primary Schools (PIPS) Project in Australia"

Every year we have to standardise the data in order to give you up-to-date comparative feedback that involves using everyone's data anonymously. **The data does not identify school or student names as all identifying information is removed before pooling the data.** Additionally, we use the results to look for patterns in data and to produce findings for the benefit of everyone. Such research would not involve using the names of schools or students. The University of Western Australia employs strict security procedures to ensure that all data held (both electronically, and on paper) are kept safely and securely.

**Signing below indicates consent for the use of your school's PIPS data for this purpose.** The Human Research Ethics Committee at the University of Western Australia requires that all participants are informed that, if they have any complaint regarding the manner in which a research project is conducted, it may be given to the researcher or, alternatively to the Secretary, Human Research Ethics Committee, Registrar's Office, University of Western Australia, 35 Stirling Highway, Crawley, WA 6009 (telephone number 08 6488-3703). All study participants will be provided with a copy of the Information Sheet and Consent Form for their personal records.
